

Cucumberenia Culinaris – IMWe Song 2005 by Christoph

– Capo on 2nd fret –

1. Some people use to say that I am seriously ill
 I, for myself, would say I'm just in love
 Among the nice and tasty things in life there's still
 one certain thing for me that stays above

2. A piece of cake won't lure me and no menu pleasures me
 No fish or meat, no pasta suits my taste
 I get no kicks from cannabis or cars or stupid sweets
 The time you spend to change me is a waste!

Chorus:

Well, there ain't nothing that I need
 I guess there's nothing that could feed me
 Is there anything that you can eat
 if it's not long, round and green?
 Everybody tells me I am totally strange
 And that this habit is not good for my health
 But even if I could: I never will change
 I love cucumbers like myself!

3. Don't feed me with tomatoes or with lousy little beans
 A carrots colour tells me »get away!«
 The look of a potato is just too obscene
 My all time favourite vegetable stays the same:

Chorus: Well, there ain't nothing ...

4. My childhood is the reason said a doctor once to me
 The infantile sexuality breaks through
 My superego doesn't work the way it should be
 But what's the matter, I ask you?

Chorus: Well, there ain't nothing ...
