

All Hands On Deck (Frithjof Brandes & Flo Völkerer)

C **G**
The sun did shine on Tortuga Bay

F **C**
When we left the port

C **G**
Nobody did know anyone

F **C**
When we went on board

We didnt know where the journey will

Bring us and our ship

But we set sail, rowed out the port

Thats where friendship beginns

All hands on deck, haul in the sail

The voyage is now done

Ye pirates fill the evening gale

With our final song

The days passed by with dazzling speed

And soon we grew to know

Every single one among

Our crew like friends of old

Upon the way we joined our hands

And worked the sail as one

We conquered storms, found foreign lands

As we sailed to the sun

All hands on deck, haul in the sail

The voyage is now done

Ye pirates fill the evening gale

With our final song

And whe the journey reached ist end

We looked in each others face

One eye was happy, the other sad

And our voices filled the gale

All hands on deck, haul in the sail

The voyage is now done

Ye pirates fill the evening gale

With our final song
